

# KEVON EAGLIN

## Full Stack Web Developer

### Projects

#### LitSwap! // Link: <http://bit.ly/litswap>

Stack: MongoDB with Mongoose, ExpressJS, React, Node (MERN)

- Developed a media trading platform with GA classmates
- Orchestrated React application development and defined RESTful client-side routes
- Employed Axios to query the RESTful API my team created
- Deployed React application with Surge CLI and Node server to Heroku, Mongo database to mLab Cloud DB
- Managed the React application repository on GitHub

#### Johnson-Jones Family Book // Link: <http://bit.ly/kevonfamilybook>

Stack: MongoDB with Mongoose, ExpressJS, React, Node (MERN)

- Built an informational family history app to aggregate ancestry research
- Created as a MEHN app; later transformed Handlebars view layer into a React application
- Adapted Node server by modifying it to serve JSON instead of Handlebars views
- Deployed React application with Zeit's Now CLI and Node/Express application with Heroku CLI

#### Tower of Hanoi // Link: <http://bit.ly/kevonhanoi>

Stack: JavaScript, CSS, HTML

- Engineered a vanilla JavaScript version of the mathematical puzzle game of the same name
- Affixed nested event listeners to game pieces and game board to allow players to select a game piece and destination

### Education

#### Web Development Immersive, General Assembly (2017-2018)

Successfully completed an intensive developer training program that consisted of 500+ hours of full-time instruction to include lectures, homework, labwork, and 4 projects to capstone each unit, including a group project. Lessons spanned from Big-O and data structures to full stack development using the latest languages, tools, and methodologies including: Agile/scrum, wire framing, and user stories/requirements planning.

#### Computer Information Systems, Prince George's Community College (2010-2012)

### Skills

JavaScript	PostgreSQL
React	Ruby
Rails	TDD
Redux	Django
MongoDB	Python
NodeJS	Git/GitHub
ExpressJS	JSON/AJAX
Mongoose	Adobe CS
REST/APIs	HTML
Teaching	CSS
Leadership	jQuery

### About

I am an intellectually curious problem-solver with excellent communication skills and a creative mindset. My penchant for helping others combined with my natural leadership ability helps bring out the best in my colleagues and bring innovative ideas to fruition.

### Prior Experience

#### Maintenance Mechanic, USPS (2013-2017)

Worked independently and with colleagues to maintain bulk mail sorting equipment and troubleshoot issues on industrial electro-mechanical machinery in a warehouse setting.

#### Home Theater Specialist, hhgregg (2009-2010)

Helped customers wade through a sea of tech to find their fit from available selection of TVs, laptops, desktops, and other assorted electronics. Assisted with setup, troubleshooting initial issues.
