Kevon Eaglin

Full Stack Web Developer

Projects

Where It Matters // Demo: https://whereitmatters.herokuapp.com
Tech: React, Charity Org Hunter API
- **Bison Hacks 2018 2nd Place Winner!**
- 36-hour hackathon sponsored by Howard University
- Get help choosing charities where donations have the most impact
- Co-created the bulk of the business logic with 2 teammates
- Contributed to styling and design
- Managed the React application repository on GitHub
- Facilitated deployment to Heroku

Got Game? // Demo: https://gotgame-lfg.herokuapp.com/app/games
Tech: Django, PostgreSQL
- Matchmaking for multiplayer games, intended for marginalized groups to play amongst each other
- Styled using Materialize
- Created login, signup flows for users to create and respond to posts
- Deployed to Heroku

Johnson-Jones Family Book // Demo: http://bit.ly/kevonfamilybook
Tech: MongoDB with Mongoose, Express, React, Node (MERN)
- Archival family history app; aggregate family ancestry and lore
- Created as a MEHN app; refactored Handlebars view to React app
- Refactored Node app to serve JSON instead of Handlebars views
- Deployed React app to Now via CLI
- Deployed Node/Express app to Heroku via CLI

Skills

JavaScript	PostgreSQL
React	Git/GitHub
Node	TDD
Express	JSON
Django	AJAX
Python	Adobe CS
Rails	HTML
Ruby	CSS
MongoDB	jQuery
Mongoose	Teaching
REST/APIs	Leadership

About

I am an intellectually curious problem-solver with excellent communication skills and a creative mindset. My penchant for helping others combined with my empathetic approach to leadership helps bring out the best in my colleagues and bring innovative ideas to fruition.

Education

Web Dev Immersive, General Assembly (2017-2018)
- 500+ hours of full-time, intensive developer training
- Lectures, homework, hands-on labs
- 4 capstone projects (including 1 with classmates)
- Computer science concepts including Big-O and data structures
- SDLC concepts including agile, wire-framing, user stories, requirements planning

Computer Information Systems, Prince George's Community College (2010-2012)

Prior Experience

Mail Sorter Maintenance Mechanic, USPS (2013-2017)
Worked independently and with colleagues to maintain bulk mail sorting equipment and troubleshoot issues on industrial electromechanical machinery in a warehouse setting.

Home Theater Specialist, hhgregg (2009-2010)
Helped customers wade through a sea of tech to find their fit from available selection of TVs, laptops, desktops, and other assorted electronics. Assisted with setup, troubleshooting initial issues.
